Part IV: Nature of Non-Matter

Definitions: Poly-Existentials.

Poly-Existentials: That which exists in nature in plural. Replecatable. Castable. Idea, Concept, Knowledge

Recorded Human Formula: (Recipe, H2O, Software Source Code). Conatiner Of Human Formula (brain, memory)

Ownership of Matter: Real Property. Thou shall not steal (in all religions)

Ownership of Poly-Existentials: Libre. Copyright and Patent are against nature. (so called Intelectual Property Rights)

Matter vs Poly-Existentials.

Open Poly-Existentials: Available as Human Formula.

Closed Poly-Existentials: Not Available as Human Formula.

Private Poly-Existentials: Secrete. Private key in PKCS.

Public/Exposed/Released Poly-Existentials: public.

Restricted Poly-Existentials: Proprietary.

Libre Poly-Existentials: Non-Proprietary. See “English Needs Libre” [**?**].

Non-Libre Poly-Existentials: Proprietary.

Private and Public Poly-Existentials.

Because poly-existential exists in multiples it is not natural for it to have an owner. But poly-existential can be private poly-existential or public poly-existential. Private poly-existential is secret. Public poly-existential is knowledge. Neither is ownable.

Matter is ownable. A House is Private Property. A National Park is public property.

Forms of Poly-Existentials.

- Software
- Books
- Music
- Movies

Software: A Special Form of Poly-Existentials.

- Utiliterian / Useful
- Lends itself well to collaborative development
- Accumulates development (cumulative)
- Free Software/Tools facilitate development of more Software

Summary: Exclusion – Laws, Economics and Morality

- In this paper we prove that Western so-called IPR Regime is ill designed and ill directed and desctructive in global scope.
- In the global scope, the basis for our rejection of IPR regime is the inherent nature of poly-existentials which are the subject of IPR. In a sovereign's scope, the basis of our rejection of IPR regime are the dynamics that lead to societal collapse.
- The concept and terminology for poly-existentials does not currently exist in the patent/copyright/confidentiality/trademark analysis.
- Laws Governing Mono-Existentials are well tested and there is universal consensus.
- Laws Governing Poly-Existentials have not been tested. Are not universal.
- Objectives of Intelectual Property Rights Regime (Financial) Are In Conflict With Nature
